MTD RESEARCH SPECIALISTS BUSINESS PROFILE

BUSINESS OUTLINE

MTD Research Specialists is a growing Socio-Economic Research Company providing research services, monitoring and evaluations and Statistical Support services to public, private and voluntary sector organizations operating in South Africa. In particular, we use our national international experience of economic policy, NGOs and Donor funded projects, private sector development, sustainable finance, partnership and institutional capacity building to support the effective engagement of the private & public sector in achieving development goals. MTD stands for innovative consulting services and problem-oriented solutions. Our aim is to provide sound services to our clients based upon extensive experience and know-how, helping to analyze problems and to develop sustainable solutions.

OUR FOUNDATION

MTD was founded in South Africa in 2009 with the specific objective of offering research, technical assistance, and institutional development and training services to a diverse range of stakeholders involved in the formulation and delivery of policies, programmes and projects to promote sustainable social and economic development.

MTD Research was established in direct response to the need for a dynamic and resourceful organization to deliver services in soft technology that would allow the benefits of projects to be brought closer to communities and to mobilize people's participation in the projects. MTD provides services to our partners in national and international development agencies, governments and the private sector.

VISION

Our vision is to be the first choice provider of Research Services and Statistical Support Services in South Africa and the region.

MISSION

To satisfy the research, statistical, technical and business developmental needs of our clients.

OUR AIM

Our aim is to facilitate the transformation of livelihoods through innovative as well as tried-and-tested ideas and approaches that build on the potentials of local populations.

MTD RESEARCH SPECIALISTS BUSINESS PROFILE

OUR CORE VALUES

Our core values are embodied in our commitment to innovation, deep customer-care orientation and respect for diversity. Accordingly, we offer efficient and quality customized services on terms that are cost-effective with fidelity.

To our Clients/stakeholders, we commit ourselves to:

- Delivering a service of the highest quality at all times
- Efficient execution and respect for deadlines
- Maintaining the highest standards of integrity in all our work
- Carrying out our business in an ethical manner
- Paying special attention to the needs of disadvantaged groups in the communities we work in.

To our own Organization, Consultants and those who work with us, we pledge to:

- Create a non-discriminatory and conducive working environment (equal opportunities)
- Promote a culture of continuous learning and sharing
- Uphold the ideals of good governance, transparency and accountability.

MTD RESEARCH SPECIALISTS BUSINESS PROFILE

Statistical services

MTD also Specialize in the provision of statistical services to the business and academic communities. Our focus is on the improvement and development of statistical capabilities within the business information and academic environments, providing innovative and tailor made solutions to our clients. Our efficiency stems from our marked experience in learning and organizing national surveys with very large database systems. Our expertise also covers the provision of accurate and relevant statistical analysis timely.

We strive for excellence in the provision of analytical information solutions and data processing, data mining, statistical analysis, and training. We provide clients with a keen understanding of their business or research data.

Approach

Our approach to the delivery of services is consistent with our value system and philosophy. It involves:

- Responding to the varied specific needs and expectations of our clients
- Working systematically with our clients to identify the issues that inhibit the performances of their operations and to introduce the correct procedures and practices to generate efficient and effective improvements
- Firmly uphold the principles of partnership in our relations with clients, partners and employees

OUR CAPACITY

MTD Research employs full time and part time professionals in research design and planning, field work, Data Capturing, Data Collection, Data Analysis complemented by a dynamic pool of associate consultants. Our consultancy teams have earned us a reputation of high quality work and professionalism in executing both large and small projects. At MTD Research, we know the client is the overall judge of quality therefore with every assignment we carefully listen to and address the client's needs. In addition, we endeavour to determine the client's level of satisfaction as well as for our own learning, with every assignment by distributing a customer satisfaction questionnaire.
